This packing requires no attention after being pianod in the cylinder, dispensing with the use of aprings and expanding soluty by the steam premare. It will accommodate itself to insequalties in the cylinder that no other packing will do. We have tested it fally in the part six mouther packing will do. We have tested it fally in the part six mouths, having applied it to many enginee, and six use is being generally adopted on the principal railroads, giving in all cases the most specificit activaletion, and proving itself to be a steam economier.

The Election.

Hardly two weeks clapse before the election in this State. Do our citizens realize its great importance? Do they comprehend its bearings upon the political sitcation of this country? We fear there are many who do not. We fear there are many who will be as badly deceived in this contest as they were in 1500, when they thought they could ORGANIZE SECES stor without producing any war, when they thought they could sow the winds without reaping the whirlwinds.

If an inscrutable Providence should give the Secession Radicals of this State success at the polls, we shall regard, we shall be forced to regard, that success as a serious and heavy calamity, not simply to this State, but to the country at large

It is known to every inteligent man in Kentucky that this Secessi n Party that endeavoring to o tain complete con trol of the State is composed of persons who voted with the Secres a party in 1.60. who attempted to free Keutucky out of the Uni m in 1-61, who strove to discolve the Uni n by f ree and fraud an l wh sympat zed with those wh bart ed for the destruction of the Union and the Governme t. It is equally well known to every y in this State, and t a'l reading men out of it, that the leading Secondon Radicals of this Party have not repudisted Secess in directly or indirectly. They have n t d it it in their platform. They d cot do t = the r strum and fre the newspaper organs. They any not one word against it. On the contrary, they ernment of our fathers. They declare that the attempt to or sh that eff rt was a work of despotism and outrage. They admit that they are now p w rless f another attempt at revolution, but they d not ahandon the principe They merely say they will not try it again for a long period, and they thus dist notly adm t they are cherishing the old I aven in their hearts, and will await only a favorable opportunity, whether that is a "long way off or near at hand to make another rally in favor of Secession and war! Many of those who tried to destroy the Union are candidates for office in the various counties, and in not a few in stances they appeal for support to their efforts to overwhelm the Government of

Some of these secession Radicals-they are as radical as Thaddeus Stevens or Charles Summer or Wondell Phillipsopenly declare that they will not vote for for Jeff Davis for President than Andrew Johnson; and they denounce iu terms of unmeasured obloquy all m n who sustained the Union, which includes not only General Hobson and the best Kentucky, but Andrew Johnson and all those noble men who are now trying to restore the Union, and the Southern States to their rights. Every honest enpatent to all thinking and reading men of every shade of political views.

The success of the Davall Party here would, therefore, enable the President s of ponents in the North to carry the fall elections and to come back to Washington fushed with victory and stronger and more insolent than ever before. Such a triumph in Kentucky as the one we allude to, the triumph of the Secession Radical Party would, therefore, be a grave calamity, fraught with evils to the entire conntry. Such an event would inflame sec tionalism North, and that, by the law of South, and thus between the two converging torrents, our poor country would be again in imminent danger of being swept into the yawning abyss of more war and

We tell our citizens of all parties-and we tell them with the atmost frankness and sincerity—that if they vote this Radi cal Secession Party into power two weeks hence, they will vote for more troubles. they will vote for more bureaus and more martial law, more civil war, more mili tary rule, higher taxes-in a word, for Every merehant in Louisville, Frankfort,

Lexington. Bowling Green, Lebanon, etc. etc., who votes to sustain this Secession Party, headed by Davall, will vote to paralyze his business and to bring more horrors to the hearth-stones of our people.
